

## Your Upcoming Trip to Noah's Landing

We're excited that your child will be visiting Noah's Landing, a non-profit nature center, on an upcoming class trip. During their time at the farm, they'll have a chance to feed, see and touch animals from around the world. To ensure the safety of our guests and our animals, we've compiled a list of tips for all visitors to our farm.

1. We recommend dressing for the weather. During summer months, dress to be cool and comfortable. During the winter, bring a heavy coat. Many of our exhibits are outside.
2. Please wear close-toed shoes. We will be walking outside and across many roots.
3. Consider insect repellent and sunscreen.
4. Pack a water bottle on hot days.

You can learn more about Noah's Landing and the animals that your child will see at: [www.noahslanding2x2.com](http://www.noahslanding2x2.com). You can also find information about scheduling a family visit or a birthday party. We wholeheartedly believe that education does not end in the classroom and encourage you to "quiz" your student about the animals they met at the zoo. They might surprise you with all the new things they've learned!

We look forward to seeing you soon,

Noah's Landing
